Request for Port System Updates

Dear Valued Customer,

In order to serve your current business model better we have decided to simplify the request for port system updates moving forward. This will ensure that we have all the relevant information needed for a precise update.

With effect 5th September 2011 you will need to forward all port system update request in the standard format given in the sample below.

We kindly seek your cooperation to submit all requests at least 3 hours prior to gate in. This would allow our team to perform the necessary updates and revert with confirmation accordingly.

If you need further information, please do not hesitate to contact the Customer Service Team.

Example of the mail to be sent (please indicate the correct terminal in your email):
