Remarks:

1. For feeder port, equipment detention freetime is counted from the next day of discharge until gate-in (return) date of empty container. Therefore, it includes days when the container is at the port/depot and when the container is with the customer for un-stuffing and until the empty container is returned.
2. For YAT/SHE/IWN/DCB/NAN, equipment detention freetime is counted from the day of vessel ETD until gate-in (return) date of empty container. Therefore, it includes days when the container is at the port/depot and when the container is with the customer for un-stuffing and until the empty container is returned.
