## Reefer Express Lane in MICT Now Operational

Dear Valued Customer,

We are pleased to inform you that the International Container Terminal Services (ICTSI) has recently just started a **Reefer Express Lane** (REL) service at Manila International Container Terminal (MICT) for faster releasing of import containers via the West Gate. This Reefer Express Lane can be used for both international and domestic imports to Manila.

For your truckers to be able to use of the REL, the consignee or broker should request for a **reefer signage**, a special identification pass to be placed on the truck's windshield. This is issued free of charge.

Please take note of the following guidelines:

- Only gate passes with clear/no pending transactions will be allowed to go inside the terminal.
- Brokers should ensure that documents and payments are completed **before** advising truckers to pick up the reefer containers.
- Brokers must provide both the reefer signage and gate pass to their trucker **PRIOR to entry** into MICT.

Truckers will pass through the MICT South Access Road and proceed to Lane 7 of the West Gate for their single entry reefer withdrawal transaction.

The express lane is available every Monday to Friday from 7am-7pm.

To request for the reefer signage and for more information on the guidelines for REL usage, consignees and brokers can contact +63 2 2454101 local 2512 or personally request any of the tellers at the MICT Billing Centre.

We hope this new service will be beneficial to you.

Thank you very much for your continued support!

Best regards,

**MCC Transport, Philippines**
