Adjustment to Detention and Demurrage Charges

Dear Valued Customers,

With increasing demand for containers in Asia as export pick up, customers are faced with challenges getting sufficient containers to meet their shipping needs. In our endeavours to improve equipment availability to cater to the needs of our valued Malaysian customers, MCC Transport is adjusting our Detention and Demurrage charges to encourage timely return and to recover both the increasing equipment and opportunity costs.

Effective 1st June 2010, our Detention and Demurrage charges post agreed free time will be computed for all locations as follows in Malaysian Ringgit:

Import Demurrage and Detention
